EECS 581 Group 4 - Project 1 Retrospective

- Things that went well:
    - Organization
    - Documentation
    - Assigning work

- Things that we lacked:
    - Frequent communication
    - Comprehensive code comments

- What we wish we knew:
    - Better understanding of Tkinter
    - To start timekeeping from the very beginning

- What we plan to change:
    - Comments better describe overarching code function (better general comments)
